Speaking on the company's performance during the quarter, **Mr. H P Singh, Chairman and Managing Director** said, "Notwithstanding the challenging environment under which the NBFC industry has tread in the last quarter, SATIN still holds India's largest NBFC-MFI customer base. On account of floods in the states of Assam, Bihar, Orissa and Madhya Pradesh, we witnessed a marginal increase in PAR numbers during Q2FY20 and also impacted loan disbursement. However, we are constantly working towards maintaining a quality portfolio. We are undergoing a complete process re-engineering, leading to tightening of credit norms and better controls. We have successfully implemented Centralised Shared Services, Psychometric test and Geo-tagging of our branches, centers and clients house".

Mr. Singh further added, "SATIN has been successful in growing its non-MFI portfolio by more than 30% in the past 6 months. We will adhere to PAT guidance and continue to improve our performance in the upcoming quarters by expanding to new branches, untapped territories along with our subsidiaries. Nevertheless, we will continue to capitalize our distribution outreach by deepening our presence in the underserved rural/semi-urban areas of 22 states and union territories. To achieve this, we have curated our business strategy on four core pillars; geographical expansion, portfolio diversification, asset quality and strategic partnership with financial institutions. SATIN aims to be one-stop solution provider by leveraging its rural outreach."
