A STRATEGY DEFINED BY VISION, BUILT TO WITHSTAND TIME

At Satin, our approach has always been grounded in building a **future-ready and sustainable model** with thinking in years, not quarters. What we're witnessing today is not the result of short-term gains, but the culmination of **decades of strategic execution, bold decision-making, and consistent discipline**.

Over the past 15+ years, the sector has weathered multiple crises viz Andhra Pradesh, demonetisation, the pandemic, and the Assam crisis. As an active player, we too felt the impact of each. But with over **34 years of experience**, we didn't just survive, we adapted, learned, and emerged stronger each time.

Our resilience is built on **strong governance, best-in-class risk management, disciplined underwriting, innovation, and a robust business model**. These pillars ensure that no crisis ever defines us, what defines us is how we respond and rise.

During demonetisation, despite our high exposure in UP, where PAR 1 peaked at ~45%, we remained focused and methodically brought delinquencies under control. During COVID, while stress spread across the industry, our credit costs remained among the lowest in the sector, as highlighted by few analyst reports. And in Assam, rather than taking exit, we deepened our commitment, reinforced control, and today, the state ranks as one of our best performing states.

Every action, crisis response, system enhancement, risk mitigation has been a step toward building a business with purpose and perseverance.

**Protected our Position, Carved our Path, Led with Purpose, and Built a Legacy Rooted in Foresight
Emerging As One of the Top Performers in the Industry**

Registered an AUM growth of 6.8% on a YoY basis whereas the industry de-grew by 19.8%*

Sustained profitability for 15th consecutive quarters, even as the sector faced widespread losses

Our credit cost has been under control and is within the guided range

Experienced and stable leadership, with the core management team averaging 9+ years of tenure

Strong focus on subsidiaries, driving portfolio diversification and de-risk business
