

SCNL follows a risk-based lending rate system, where the interest rates offered to our customers are determined based on the customer's vintage in our system. For new customers, the applicable rate of interest is fixed at **27.50%**. For cycle 2 customers, the interest rate will be decided as per customer Credit Bureau score (**CB Score > 700: 26.00%, ≤ 700: 24.99%**). From cycle 3 onwards, there will be a reduction of **0.25%** from the interest rate of the previously disbursed main loan.

The below-mentioned product structure is effective from **6th September 2026**. Below mentioned are the tentative instalment amount; the actual instalment may vary depending on the applicable rate of interest, moratorium period & dynamic repayment schedule. To avoid issues with cash handling during center meetings, the installment charged to customers is always rounded up to the nearest multiple of 10. Any excess amount collected due to this rounding is adjusted and settled in the final installment. The actual EPI along with detailed repayment schedule is shared with customers before executing the loan agreement.
